

Sally's Stackable Star Bowl

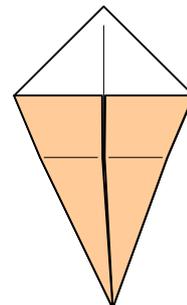

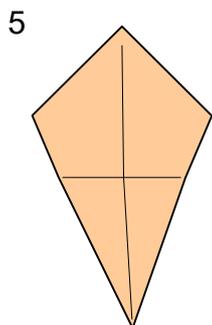

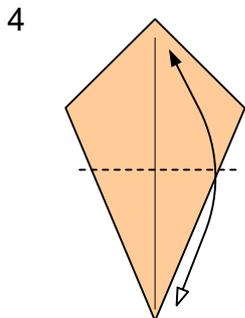

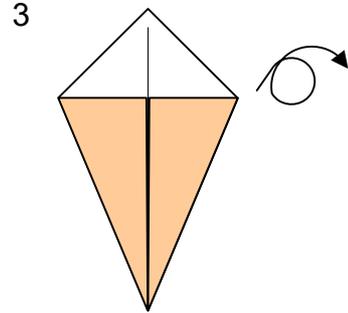

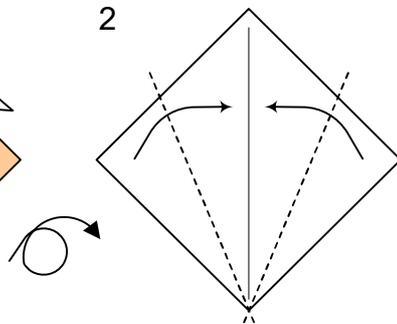

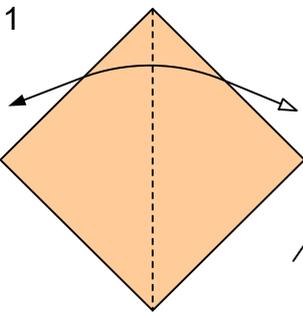

You will need 14 squares to make this model,
7 squares for each module type

Module 1

Make 6 more

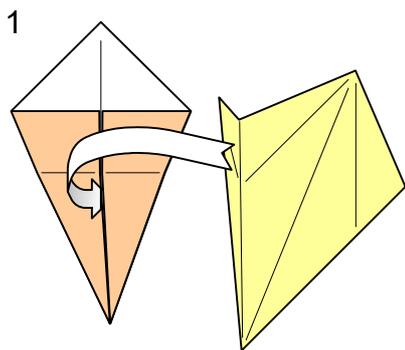

Module 2

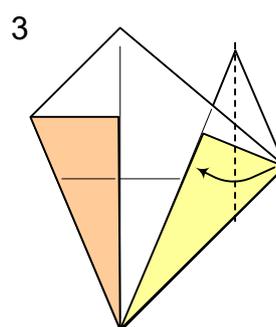

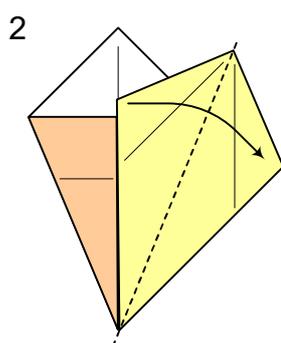

Make 6 more

Sally's Stackable Star Bowl

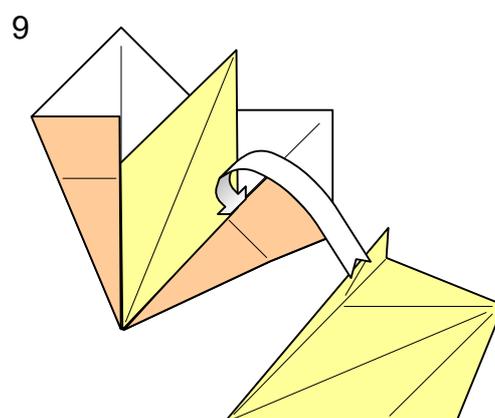

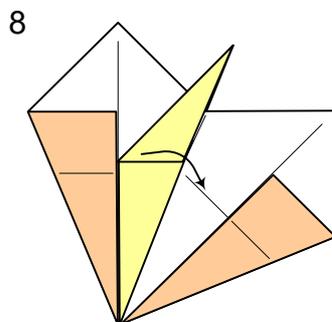

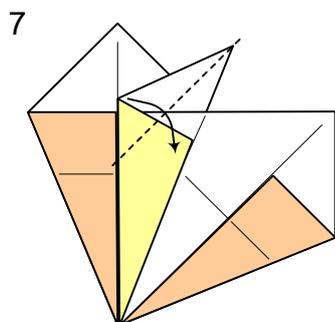

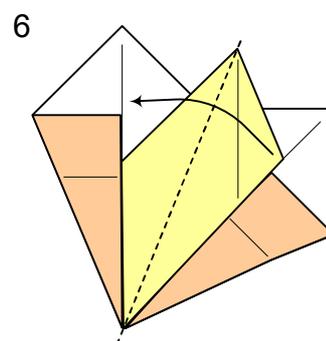

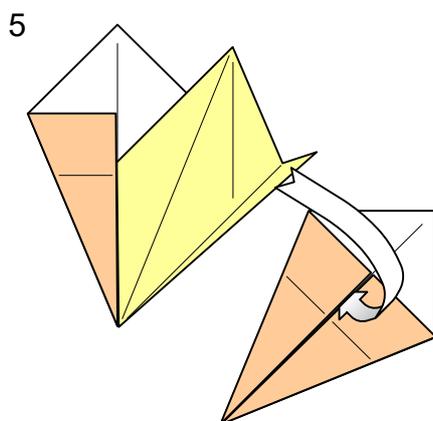

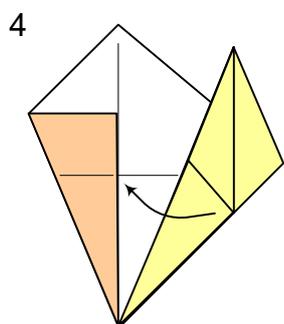

Assembly

Hook 2 units together

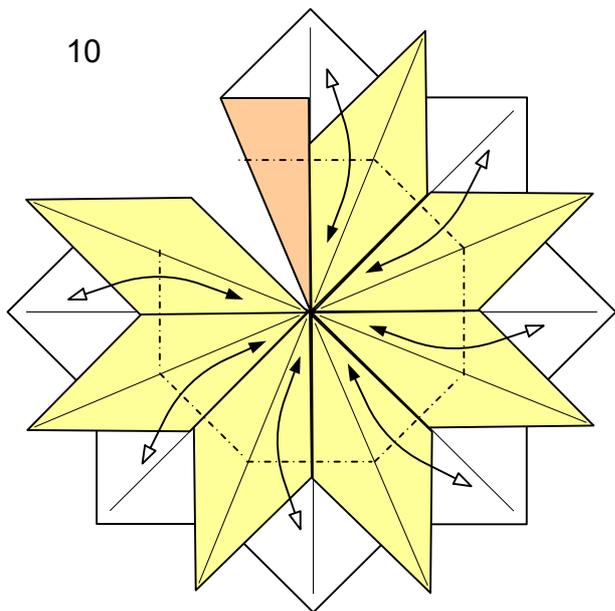

Do not fold all the layers

Add the remaining units the same way

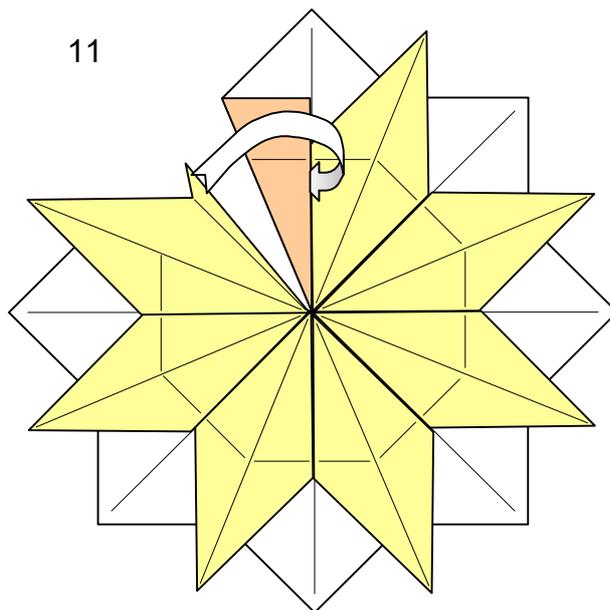

Sally's Stackable Star Bowl

10

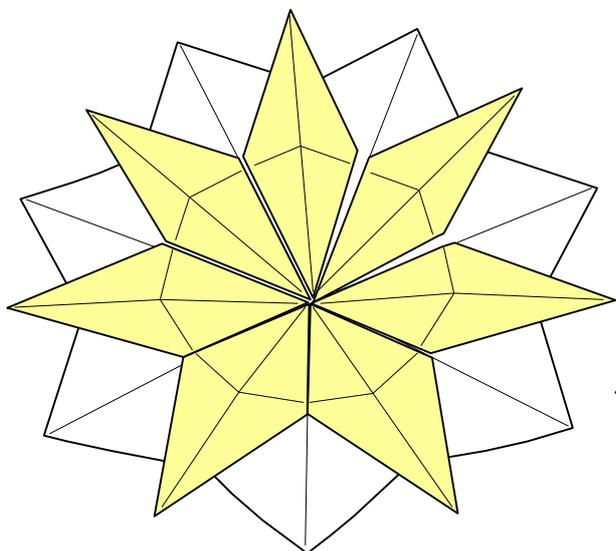

Use the existing crease in module 2 as a guide to crease module 1

11

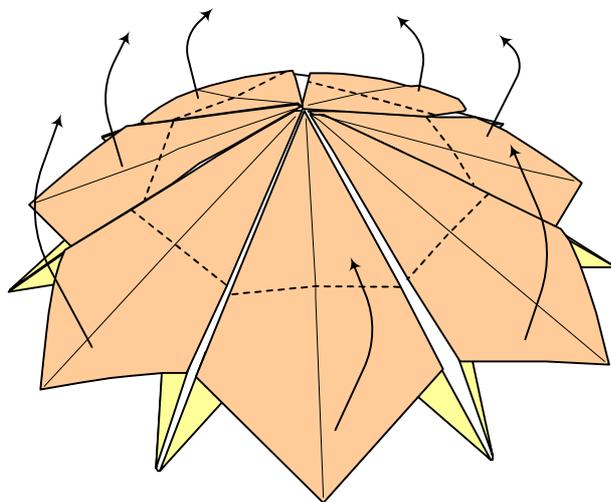

Connect and lock the last 2 units - make sure the centre is pointing away from you

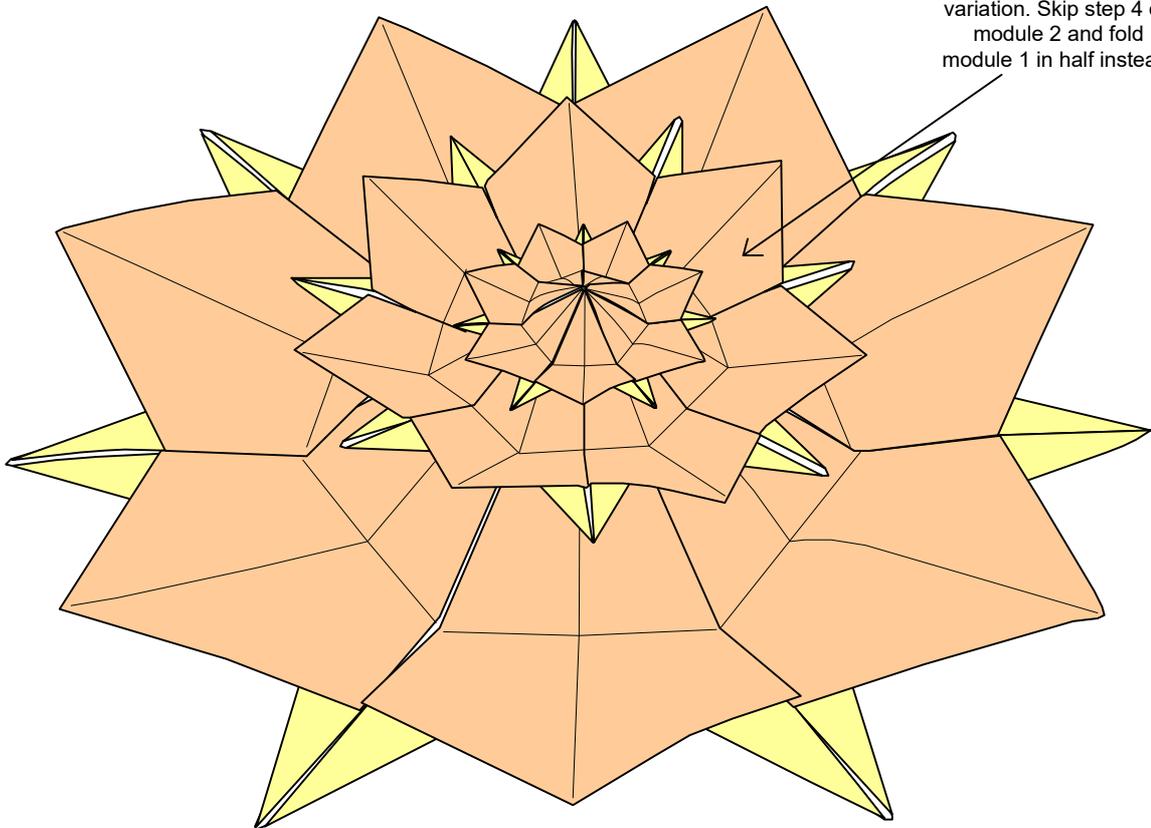

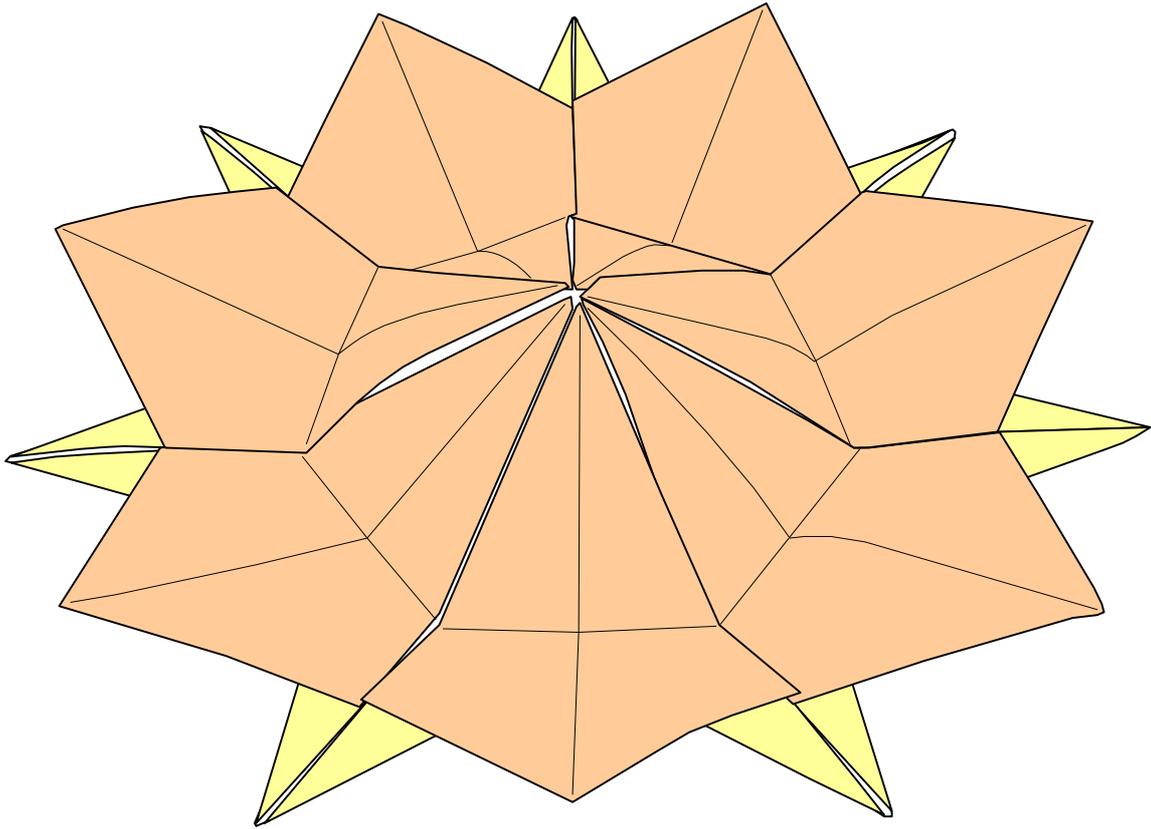

12

13

Sally's Stackable Star Bowl

This middle sized one is rotated using a slight variation. Skip step 4 on module 2 and fold module 1 in half instead.

Make smaller models and stack them. Shown above, each smaller model is made by dividing the squares of the next size up into quarters.
